Trane’s New **S-Series** Gas Furnaces

**S9V2** 2 Stage Variable Speed

The new S9V2 furnace is more efficient in both heating and cooling, offers quiet operation, and maintains the DNA that Trane is known for: quality and reliability.

**Industry-changing cabinet design**
The S-series furnace cabinet is designed to accommodate virtually any home, and is certified to be airtight to less than 1%.

**Efficient performance**
The S9V2 is rated at **96%** gas efficiency (AFUE), and the Vortica™ II blower is one of the most efficient in the industry, providing energy savings in both winter AND summer.

**Comfortable, even heating**
With stainless steel primary and secondary heat exchangers, and the ultra-efficient Vortica™ II variable speed blower, you can count on a consistent flow of warm, comfortable air with quiet operation.

Every Trane furnace is packed with high-quality components. Each helps ensure that time after time, your unit will provide total comfort your family can rely on.

**The S9V2 includes:**

» Re-designed cabinet platform to fit in tighter spaces.

» Variable-speed blower motor.

» Heavy gauge, two-tone powder-painted cabinet.

» Increased dehumidification with Comfort-R™.

» Insulated cabinet for quiet operation.

» Stainless steel primary and secondary heat exchanger.
**Single Stage Gas Furnaces**

Your Trane gas furnace is already going to make you more comfortable than you can imagine. Because a cozier, more comfortable home doesn't have to use a lot of energy.

**HIGHEST ENERGY EFFICIENCY IN TRANE’S SINGLE-STAGE XR95**

With an equal emphasis on comfort and efficiency, the Trane XR95 single stage furnace converts 95% of fuel it uses into warm, cozy heat. Exceptional, reliable and dependable heating for your home.

**Highly efficient performance**
The XR95 hot air furnace features a 95% AFUE rating.

**Durable construction**
Materials for all components are tested again and again for long-lasting performance and durability.

**Modulating Variable Speed Gas Furnaces**

Staying warm in the winter season is just a fraction of what you need. Doing it efficiently day and night, even on the record lows, that’s what a Trane furnace gives you. Innovative furnaces with efficiency in mind.

**TOTAL WARMTH AND COMFORT OF TRANE’S XC95m MODULATING VARIABLE SPEED**

**Efficient performance**
The XC95m is rated with up to 97.3% efficiency (AFUE) and select furnace models are Energy Star qualified.

**ComfortLink™ II Communicating Capability**
ComfortLink™ II communicating technology connects all of your key components so your system automatically charges, configures and calibrates for optimal performance through the lifetime of your products.

**Comfortable, even heating**
Variable-speed blower motor adjusts speed to provide a consistent flow of warm, comfortable air with quiet operation.

Trane Air Conditioners

Trane Air Conditioners represent a serious commitment to your comfort and peace of mind. These are some of the most advanced air conditioners Trane has ever created, and are some of the most efficient. So you stay comfortable and energy smart in even the worst weather year after year. Relax. You have a Trane.

Trane XL18 Air Conditioner - UP TO 18.0 SEER

Working as part of your home’s HVAC system, the XL18 central air conditioner unit offers two-stage cooling, making it easier than ever to cool even the hard-to-reach parts of your home. This central air conditioning unit’s design ensures that your family can rely on superior comfort year after year.

ENHANCED COOLING. EFFICIENT CONTROL.

Efficient performance
Trane’s XL18i central air conditioner units have Seasonal Energy Efficiency Ratings (SEER) up to 18.00 making the systems an energy-efficient choice for home comfort.

Two-stage cooling
Two stages of cooling meet any outdoor climate conditions and prevent interior temperature swings.

Durable and economical
Trane’s central A/C units come with increased efficiency that may substantially lower your home cooling costs. Materials for all components are tested again and again for long-lasting performance and durability.

Trane XR16 Air Conditioner - UP TO 17.0 SEER

Working as part of your home HVAC system, the XR16 home air conditioning unit comes with the reliability you’ve come to expect from Trane and the energy efficiency you deserve. This central air system’s design ensures that your family has superior comfort year after year.

HIGH EFFICIENCY. COOL AIR.

Efficient performance
The XR16 home air conditioning system has a SEER rating of up to 17.00, making it an excellent choice for home comfort and for earning energy-efficiency tax credits.

Durable and economical
Increased efficiency may substantially lower your home cooling costs. Materials for all central air conditioning systems are tested again and again for long-lasting performance and durability.

**Trane** Air Conditioners Continued

**Trane XR13 Air Conditioner - UP TO 14.5 SEER**

**SMART THAT’S JUST AS COOL**

**Efficient and Economical Performance**
The XR13 home air conditioner’s SEER rating of up to 14.50 gives you the right mix of cooling and energy efficiency, which may help lower your home cooling costs.

**Durable Construction**
Materials and components for all home air conditioning systems are tested again and again for long-lasting performance and reliability.

**Trane** CleanEffects™ Air Cleaner

**BEST AIR CLEANER IN THE WORLD**
Comfort isn’t just heating and cooling anymore. It’s cleaning the air. And Trane is setting the standard, beginning with the world’s most effective whole-house air filtration system.

TRANE CleanEffects™ removes the smallest microns of allergens such as:
- Pollen
- Mold Spores
- Smoke
- Flu Virus
- Dust
- Pet Dander
- Bacteria

.1 micron can be huge.
CleanEffects™ filtration can bring welcome relief to anyone with respiratory difficulties. Many common allergens are small enough to bypass the body’s natural defenses and embed deep in the lungs, aggravating breathing ailments. CleanEffects Cleaner air feels better. In your lungs, on your skin, all around you.

A Trane CleanEffects™ uses patented, industry-leading technology to remove up to 99.98% of particles down to .1 micron from the air it filters, more than any other air filtration system on the market. So your air feels better than you’ve ever imagined.
